
Toy Story 3

WORKSHEET A

Toy Story 3, the third and final film in the series that began with *Toy Story* in 1995 and continued in 1999 with *Toy Story 2*, recently arrived in cinemas in dozens of countries around the world.

It has already been a success. In the United States, for example, it has already taken more money at the box office than any other film in 2010. Worldwide, *Alice in Wonderland* is the only film that more people have paid to watch at the cinema so far in 2010.

Like the first two films, *Toy Story 3* is an animation from the Pixar studios, whose other films include *Finding Nemo* (2003), *Wall-E* (2008) and *Up* (2009). It is a typical Pixar animation because it is for adults as well as children, and has a lot of humour. Most of the main characters in the first two films were children's toys that come to life when humans are not around, and in *Toy Story 3* all of them are present again – such as Woody the cowboy, Jessie the cowgirl, Buzz Lightyear the astronaut, Slinky Dog, Hamm the piggy bank, and the dolls Ken and Barbie.

The voices of most of the toys are also mostly the same as before: Woody's, for example, is again provided by the famous American actor Tom Hanks.

The main human character in the *Toy Story* films is Andy, the owner of most of the toys. He was a small boy in the first film, but now he is 17 and about to leave home to go to university. In fact, the theme of growing up, and the end of childhood, provides a lot of the emotion in the film.

Andy decides to take Woody with him to university but to put all his other old toys in a bag, intending to keep them in the attic. Unfortunately, however, Andy's mother mistakes the bag for rubbish and puts it out on the street to be collected – and that's where the toys' adventure begins. Soon they have a new home, where they have various problems, and later it seems they are going to be destroyed. This isn't the place to say exactly what happens, but anyone worried about taking small children to the film in case they get upset should remember that Pixar stories don't usually have unhappy endings.
