

e-lesson

Week starting: March 22, 2010

1. *Alice in Wonderland*

This week's lesson is about *Alice in Wonderland*, the classic work for children written by Lewis Carroll in 1865 and recently adapted into a movie directed by Tim Burton.

Level

Pre-intermediate and above (equivalent to CEF level A2–B1 and above).

How to use the lesson

1. Can your students think of any successful books for children (either in their country or internationally) that have also been enjoyed by adult readers, and/or adapted into successful movies? Have any of your students seen the recent *Alice in Wonderland* movie yet? If so, encourage them to tell the rest of the class what it is about, and what they thought of it. What do they know about the book on which the movie is based?
2. Give your students between five and ten minutes to read through Worksheet A, encouraging them to look up new vocabulary. Note that many of the words that might be new are not in the glossary because they form part of Exercise 1.
3. Give each student a copy of Worksheet B, then divide the class into pairs and ask students to work together to complete Exercise 1, in which they have to find the words to match the definitions.
4. Check answers in open class.
5. Tell the students they are going to prepare a quiz for each other. Then divide the class into two teams, A and B.
6. Cut Worksheet B in half and give each member of each team the corresponding half. Explain that each team has to work together in order to formulate the questions that produce the answers given, based on the text on Worksheet A. Note that it is possible for there to be slight variations of each question.
7. When both teams have finished preparing their questions, ask them to turn over Worksheet A and the glossary so that they can't see them.
8. The two teams now take turns asking and answering the questions. Encourage the teams to confer before answering, but make it clear that once they have given their answer they cannot change it. You should only accept answers given in correct English. Keep the score on the board; the team with the most correct answers at the end of the quiz wins.
